FOR IMMEDIATE RELEASE

TREDEGAR FILM PRODUCTS EXPANDS PRODUCTION OF STRETCHTAB LAMINATES TO EUROPE

RICHMOND, Va., April 14, 2006 – Tredegear Film Products will begin production of StretchTab® laminates range in Europe. StretchTab laminates are already produced in USA and with this new production line at Tredegear's facility in Retsag Hungary, Tredegear will expand the elastics capabilities around the globe.

Stefano Lupi, Tredegear's managing director for Europe, said: " This new line, which can produce a variety of side tab closure solutions for both babydiapers and adult incontinence diapers, reflects our commitment to expand our elastic capabilities in Europe. Our global consumer studies tell us that consumers want reliable, stretchable side tabs on their babies' diapers. On the other hand converters want a cost effective solution. Tredegear's StretchTab laminates provide just that. "

StretchTab™ laminates are a combination of quality elastics, nonwovens, and hook fastener available with and without pressure sensitive adhesive. The flexible concept of Tredegear's StretchTab range is an easy to apply solution for diaper converters.

Made with Tredegear's proven FabriFlex elastic laminates for a high-level of elasticity that offers enhanced fit and comfort, this closure system is used in leading hygiene products. StretchTab can be customized for low, medium or high stretch applications.

Tredegear Film Products Corporation, a subsidiary of Tredegear Corporation (NYSE:TG), is a major supplier of apertured and elastic materials for use in personal and household care markets and also produces films for a variety of packaging and specialty markets. Primary applications include diapers and feminine hygiene products. The subsidiary employs approximately 1,200 people at has production facilities in North America, South America, Europe and Asia.
